

Quick Clean Citrus

Date: 15. Februar 2018

Product description

Quick Clean Citrus is an ecological all-purpose cleaner on the active ingredient basis of renewable raw materials. It removes problematic impurities such as adhesive residues, oil stains, ink and ballpoint pen ink without residue. Due to the PH-neutrality and because it is non-corrosive **Quick Clean Citrus** is particularly suitable for cleaning closed-pores and colored surfaces. It is also suitable for removing the already hardened silicone. Because of the variety of the surface materials we ask for a preliminary test in the blind spot.

Product features

- Non corrosive cleaner;
- pH-neutral; cleans all closed-pore and color surfaces residue-free;
- one saves laborious scratching and time;
- the natural citrus extracts penetrates into the dirt and detach it.

Usage

Clean the surfaces of coarse soiling. Shake the can intensively for approx. 2 minutes. Spraying distance: from about 20 - 30 cm. Spray the spot to be cleaned and wipe it with a clean cloth after a short exposure time. In the case of heavy impurities the cleaning process may have to be repeated.

Durability and storage

We guarantee a life span of 36 months in its original unopened packaging, at a storage temperature of -5 °C to +30 °C.
